Hi Bill,
Yes, that was exactly the type of description I was working on. I just got out of a meeting and am going into another but will work on this right afterward at 3—I'm almost done

Thanks for working on this. Btw, I referenced the wrong link earlier – I meant this one, which Brent again provided to the Congressionals in today's update:

[EPA Comments to Navy about Tetra Tech EC Inc](#)

I think it could be presently more subtly in the website context of public comment on the draft workplan, as in 'EPA's comments are available [here](#).'

I just talked to John. If that's what Enrique wants, then go ahead. I apologize for creating confusion.

Subject: RE: Clarifying we should remove the language about the comment period from the website bc that is closed

Hi all – we should huddle on this. Enrique happened to be passing by, and when I asked him about how visible he wants our comments to be online, he favored keeping this reference to the draft workplan and even adding a link to our comments (I'd use the link below). I don't think it makes sense to just take all reference to this away.

Btw, he favors adding 'Navy' to the following... and I'd change to verb tense a bit to read:

'The following Navy documents have been open for public comment:'

Bill Glenn
Acting Deputy Director
Office of Public Affairs
U.S. EPA, Pacific Southwest
glenn.william@epa.gov / (415) 947-4254

Subject: Clarifying we should remove the language about the comment period from the website bc that is closed

Just clarifying that the website currently has the language below re the comment period for the Parcel G Workplan (ending 8/15) and 5 Yr Review (ending 9/7). After 8/15 is finished, you can remove that language about the Parcel G Workplan. But please keep the language about the review period for the 5 Yr Review until 9/7 is done.

In addition, there is no need for new language highlighting the EPA comments that we sent 8/14. This new file can go into the current place where all other EPA comments on Tetra Tech EC Inc. matters go.

<https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.Stayup&id=0902722#Stayup>

The following documents are available for public comment:

- **Radiological Data Investigation: Draft Parcel G Work Plan**
- **Draft Fourth Five Year Review Report**

Radiological Data Investigation: Draft Parcel G Work Plan Radiological Data Investigation

The validity of the previous radiological testing and cleanup work by Tetra Tech EC Inc. at the Hunters Point Naval Shipyard site (HPNS) has been called into question, so new testing is needed to determine if more cleanup is needed before any further transfers of property for redevelopment. On June 15, 2018, the Navy released for public comment its draft work plan for radiological retesting in areas of Parcel G where Tetra Tech EC Inc. had previously done work. Retesting at other Parcels will follow.

The Navy encourages members of the public to review and comment on the Draft Parcel G Work Plan. The public comment period is June 15, 2018 - August 15, 2018. The workplan is available online and at these locations:

- *HPNS Radiological Program Website* ([Click here for workplan](#))
- *EPA Region 9 Website* ([Click here for workplan](#), [Click here for workplan factsheet](#))
- *San Francisco Main Library, 5th Floor Government Center, 100 Larkin Street, San Francisco, CA 94102*
- *The Shipyard Site Trailer, 690 Hudson Avenue, San Francisco, CA 94124*

Please submit comments in writing postmarked no later than August 15, 2018 to:

Derek Robinson, HPNS BRAC Environmental Coordinator
 Department of the Navy BRAC Program Management Office West
 33000 Nixie Way, Bldg. 50, 2nd Deck
 San Diego CA 92147

Lily, for various reasons, had recc. we **do not** do that. We can just have them posted for the time being and then figure out a way to present them, tying into what Rusty is doing

Looping in Rusty and Chris... is someone working on an update of the main intro that now references the comment period for the Parcel G workplan? We should review the draft update well before it's time to release the document at 4.

I believe there may be additional updates to the website in the works. Let's be sure to share drafts and get SFD and OPA signoff before we go live. Thanks!

Bill

Thank you Elaine. I suggest we keep it in the same location with all the other EPA comments. More straightforward, less confusing. I talked to David yesterday about this.

Good morning, Lily:

Got your email. I will post it up at 4:00 pm. Is that ok ?
For the 8/14/2018 letter, do you want it in the same category ? or different ?

The 12/29/17 document is live on the same link. It is 18 documents now.

Dear Elaine,

We'd like to add this file to this collection. But we don't want to go live until the end of the day Wed. Would that work for you?
